Hand-drawn diagram of a rectangular area divided into four quadrants. The top-left quadrant is labeled '12' and '9'. The top-right quadrant is labeled '12' and '9'. The bottom-left quadrant is labeled '9' and '3m'. The bottom-right quadrant is labeled '9' and '3m'. The total width is labeled '7.05' and the total height is labeled '6.75'.

x

The image shows two hand-drawn diagrams of neurons, separated by a vertical line.

- Left Diagram (Multipolar Neuron):**
 - Top: A cell body (soma) with a nucleus labeled "N" and a label "BIN" (likely dendrites) pointing to the branching structures.
 - Bottom: A cell body (soma) with a nucleus labeled "N" and a label "G" (likely axon) pointing to the long, tapering projection.
- Right Diagram (Bipolar Neuron):**
 - Top: A cell body (soma) with a label "SHL" (likely dendrites) pointing to the branching structures, and a label "Nucleus" pointing to the nucleus.
 - Bottom: A cell body (soma) with a label "Nucleus" pointing to the nucleus, and a label "G" (likely axon) pointing to the long, tapering projection.

----------	--------

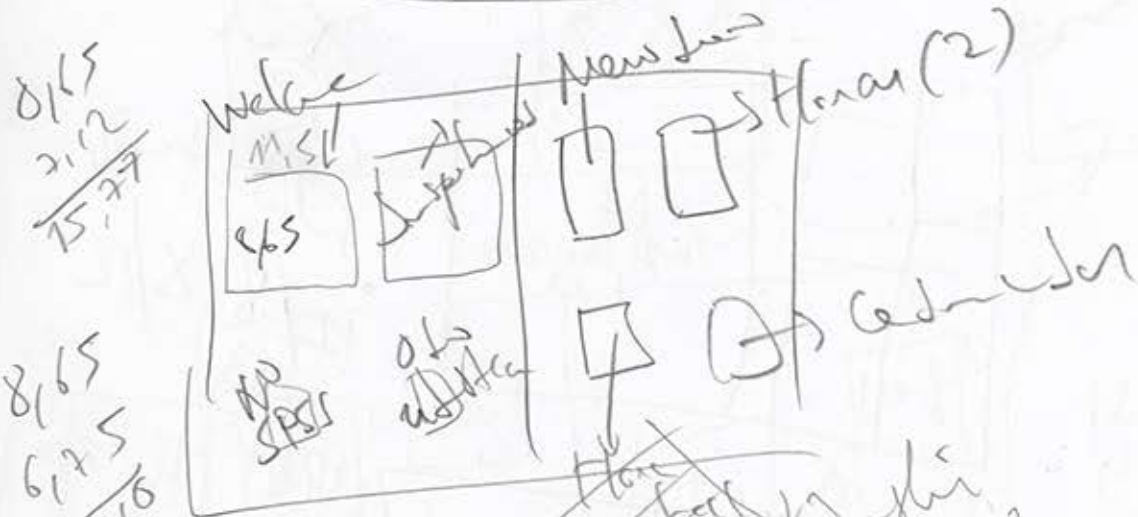

The handwritten notes show several calculations:

- A box containing "0.13".
- A calculation: $\frac{8 \times 7}{15} = 3.73$.
- A calculation: $\frac{9 \times 6}{15} = 3.6$.
